Introduction

Certificate Course on Herbarium Techniques & Methodology is a specially designed course for graduate students. The herbarium is defined as a storehouse of collected plant specimens. These plant specimens are dried, pressed, and are then preserved in sheets. These sheets are then stored and arranged in a sequence that is universally accepted by the system of classification. The herbarium botany comes under taxonomical studies.

A herbarium is a collection of preserved plant specimens that have been stored appropriately, database and arranged systematically to ensure quick access to students, researchers and the general public for scientific research and education.

The herbarium is used as a repository for the study of plants specimen. Herbarium provides instant referrals in taxonomical studies. They give histological and geographical information about different plant species.

Scope

This subject is designed to impart fundamental knowledge on the herbarium and its methodology to prepare for research and other related work. The subject emphasizes on the basic introduction and history of herbarium, different role and application of herbarium in research, types of herbaria, functions and importance of herbaria, methodology and preparation of herbarium. The syllabus also emphasizes on survey, collection, identification and preservation of few important biological species.

Objectives

Upon completion of the course the student shall be able to:

1. Understand the herbarium of history, role and applications.
2. Understand the different types of herbarium in use for academic and research.
3. Know the methodology and protocol to prepare the herbarium.
4. Study the survey, collection, identification and preservation of few important biological species.

Outcome

After completion of the course the student were acquired with A herbarium is a collection of preserved plant specimens that have been stored appropriately, data based and arranged systematically to ensure quick access to students, researchers and the general public for scientific research and education.

Syllabus

T1-Herbarium: Theory of Herbarium Preparation	(15 Hours)
1. Introduction To Herbarium	(2 Hours)
Introduction of herbarium, herbarium sheet, history, objective and role of herbarium in research and academics	
2. Types of herbarium	(1 Hours)
Details of different types of herbaria, acronyms, functions of herbaria and few important herbaria of world and India.	
3. Collection of specimen	(2 Hours)
Field equipment, field work, field notebook, and details of collection process of specimen for herbarium.	
4. Processing of specimen	(4 Hours)
Details of poisoning, pressing, drying, mounting, stitching, labeling, identification and determination of plant, incorporation	
5. Maintenance	(2 Hours)
Introduction to different methods of maintenance of such as fumigation, heating, chemical treatment, etc.	
6. Collection, preservation and identification of few important biological species	
(4 Hours)	
Brief discussion on Collection, preservation and identification of few important species such Algae, wild mushrooms, and bryophytes.	
P1- Herbarium: Practical's of Herbarium Preparation	(15 Hours)
1. Demonstration of Herbarium Technique	(5 Hours)
2. Drying and Pressing	(5 Hours)
3. Poisoning	(5 Hours)

Class: B. Pharm	Duration: 1 Hour
Course: Certificate Course on Yoga	Time period of course: 30 days

Introduction

Certificate Course on Yoga is a specially designed course for graduate students. This course is designed to build up mental, physical health of the students and it will help students be better prepared for their curricular as well as co-curricular activities.

As the students near the end of their course, and some of them are going to enter in their final academic year there might be occurrence of some sort of stress in their mind. Students need to be strong for facing stress condition, should be mentally strong and prepared for this kind of situations.

This course will help student in:

can face the world with confidence.

- To make them strong enough to face stressed condition and make them mentally and physically strong.
- To face the stress situation like Interview and its preparation.
- To make them strong enough to take some hard life changing decisions.
- To make students much more confident to express their ideas freely in front of others.
- To provide learners with skills that will bring about a holistic change in them so that they

Scope

Yoga is a mind and body practice that can build strength and flexibility. It may also help manage pain and reduce stress. Various styles of yoga combine physical postures, breathing techniques, and meditation. Yoga is an ancient practice that may have originated in India. It enhances your physical and mental stability. It reduces inflammation in the body. It improves your balance.

Objective

Yoga is designed for students to make them live healthy life, maintaining their mental and Physical health. The student B. Pharm may feel stressed as they are going to enter in final year some phobias may occur in their mind and final year B. Pharm heads towards the career and higher education as their academic UG level academic going to end so to make them strong we are going to organize this course.

Class: B. Pharm.	Duration: 180 Hours
Name of Course: Pharmacy Assistant	Course Code: MED124
Name of Sector: Medical and Nursing	Name of Scheme: PMKuva 2017

Scope

You'll work with patients every day and help with their prescriptions. You'll also answer their questions, either face-to-face or over the phone. You will make sure that the pharmacy has the necessary stock by ordering items as well as receiving, loading and unloading deliveries.

Objectives

The main objectives of a pharmacist assistant are to support the duties of a pharmacist and ensure customers receive the care they require. Pharmacist assistant duties may also include: Providing customer service to clients within a pharmacy. Answering customer questions and helping them find the products they need.

Outcomes

Pharmacy Assistant program prepares graduates to collaborate with a pharmacist and/or pharmacy technician to:

- Utilize various forms of pharmacy automation to prepare/dispense patient medication.
- Dispense, sell and compound medications.
- Manage inventory.
- Interact with patients and other health care providers.
- Assist in the provision of medication therapy management and pharmacy services.

District -Jalgaon

Dear VTP,

Your provisionally sanctioned target for the year 2017-18 has been mentioned below.

Name of scheme	Name of Sector	Name of Course	Course code	Course duration (in hours)	Allocated Target for the year 2017-18
PMKVA 2017	MEDICAL AND NURSING	PHARMACY ASSISTANT	MED124	210	90

1. You are now eligible to add new batch.
2. You will have to select sector name, course name, enter no. of training hours / day, no. of candidates, start date, batch time, scheme.
3. At this stage does not require you to enter the name of the beneficiaries.
4. Creation of batch is mandatory to include your batch details in the Skill Calendar (2017-18) which will be displayed on the website of MSSDS.
5. All the norms/guidelines will have to be strictly followed as per the Agreement (including Biometric attendance).
6. MSSDS reserves all rights for approval/cancellation of batch/batches at any time/stage, if the VTP does not abide by the guidelines, without any prior notice.
