Academic Year 2022-2023

Title of Activity/Event: Workshop on computer based Chemsketch Software

Date(s): 17/02/2022

Objective of Activity: To understand the structure of chemical bonds and the nature of the functional groups.

No. of Participant: 59

Information on Chemsketch software: A chemical structure drawing software

ACD/ChemSketch is a molecular modeling program used to create and modify images of chemical structures. Also, there is software that allows molecules and molecular models displayed in two and three dimensions, to understand the structure of chemical bonds and the nature of the functional groups.

The program offers some advanced features that allow the molecules rotate and apply color to improve visualization. It has several templates with ions and functional groups with the possibility to add text and use other tools to optimize productions created by the software

Using ACD/ChemSketch is primarily for educational use. With this program it is possible to write and perform chemical equations, diagrams laboratories and chemical structures of various entity.

Training of drawing structures using free online software

Date(s): 10/03/2020

Objective of Activity: To understand the structure of chemical bonds and the nature of the functional groups.

No. of Participant: 30

Information on ChemsSketch software: A chemical structure drawing software

ACD/ChemSketch is a molecular modeling program used to create and modify images of chemical structures. Also, there is software that allows molecules and molecular models displayed in two and three dimensions, to understand the structure of chemical bonds and the nature of the functional groups. The program offers some advanced features that allow the molecules rotate and apply color to improve visualization. It has several templates with ions and functional groups with the possibility to add text and use other tools to optimize productions created by the software

Using ACD/ChemSketch is primarily for educational use. With this program it is possible to write and perform chemical equations, diagrams laboratories and chemical structures of various entity

Free access to site licenses of ChemsSketch and Chemdraw are available on following Website
