4) The Practice

We plant various types of saplings with the help of students, teaching and non teaching staff of the college. These plants are made available from the nearby government and private nurseries mostly at the onset of monsoon every year and otherwise. These are successfully maintained by providing fertilizers and irrigation facility. We conduct the program by Green Army volunteers for the maintenance of our campus. The faculty members celebrate their birthdays not cutting the cake but by planting a sapling. This cake free initiative under this best practice has proved very fruitful so far more than hundred trees have been planted by the faculty members alone. The sapling planted by the faculty members on his/her birthday has to be taken care of by the concern faculty members including iron mashing and watering. Following are the major activities conducted to achieve the goal of green and healthy campus The college has conducted green audit of the campus. Right from the beginning the college has carried out labeling of plants on the college campus which helps students to understand the botanical names and specifications of the plants. College has maintained garden with labeling. Signboards/posters are displayed on the college campus for encouraging ideas of plastic-free campus, noise pollution, and environmental awareness. The energy audit of consumption of electricity in the college is conducted recently by certified external auditor. LED bulbs are installed in the college building to save electricity, The college has robust rain water harvesting mechanism that has I. resulted in the increase in groundwater levels of bore well on the campus. The chemistry laboratory uses rain water as distilled water for practical.

The tall trees help to reduce the noise and traffic sounds as the college campus is adjacent to the highway. It is a proven facilitates the plant barriers can be a solution to noise. Indeed, plant barriers are excellent solution for the traffic noise.

6) Problem encountered and Resources Required

No serious problems were face has such but during the initial phase it was difficult to find the alternative for single use plastic carry bags for the students.

" शेण आणि कापसाच्या झाडापासून बनविलेल्या वीट - नैसर्गिक इंधन "

दिनांक: 10/07/2021

नैसर्गिक इंधन तयार करण्याची पद्धत :

- वीट कापसाच्या वाळलेल्या देठांच्या आणि गाईच्या शेणापासून बनविल्या जातात.
- 1 किलो शेण च्या, 100 ग्रॅम वाळलेल्या कापसाच्या झाडाचे पावडरसह मिस्र करत.
- जाड पेस्ट बनवण्यासाठी आवश्यक प्रमाणात पाणी घालावे जेणेकरून वीट तयार होईल.
- बरील मिश्रण एका वीट मोल्डमध्ये घाला.
- अशा प्रकारे सूर्यप्रकाशामध्ये कोरडे झाल्यानंतर वीट तयार होईल.

आम्हाला आशा आहे की सर्व शेतकरी आणि वचत गट सदस्य या कार्यशाळेचा लाभ घेतील व त्यासाठी उपस्थित राहतील. खाली दिलेल्या व्यक्तींकडे आपली नावे नोंदवा:
